

Experimental Lake Erie Harmful Algal Bloom Bulletin

National Centers for Coastal Ocean Science and Great Lakes Environmental Research Laboratory 20 August 2012; Bulletin 12

The Ohio EPA confirmed the presence of a *Microcystis* bloom in western Lake Erie. The city of Monroe, Michigan reported phycocyanin concentrations of 979 cells/mL last week. The imagery shows slight intesification of the bloom since last week's bulletin. The model forecasts for a slight S SW movement.
